### A TREAT FOR MUSICIANS.

Mr. Levey's advertisement, in to-day's issue, announces to our musical public, an extraordinary and exceptional chance for buying, at very reduced prices, a lot of fine new music, some of which is quite rare. This music embraces principally piano pieces, piano and violin, organ, a large quantity of valuable vocal music and a few guitar pieces.

The catalogue, which gives fuller details, shows, in the piano division, 9 operas, full scores, different bound collections and several good books of instruction or exercise, together with nearly 200 pieces of excellent sheet music, suitable for teaching, and varying in grade from beginner's to the advanced player. Among these are noticeable a collection of Krug's delightful operatic arrangements for small hands, and some of Waldeufel's best waltzes and of Lange's brilliant fantasias, all of which will be sold at the very modest price of 15 cents per copy.

The violin and piano department shows some excellent collections, both for beginners and advanced players and also a special feature of trios for two violins and piano, which will delight beginners.

The voice division embraces 10 of the most valuable books of instruction by renowned authors, 5 good collections of favorite songs and not less than 21 full scores of the best modern operas, with English or Italian words, some of which are especially suited for parlor entertainments, with a limited number of singers. The same can be said of 13 beautiful cantatas and of different part song books or vocal quartets, the last of which are especially suited for school practice.

The whole can be seen at Mr. Levey's auction rooms and there bought for the prices marked on the catalogue, but will be sold at auction, if not previously disposed of. Amateurs are accordingly invited to an early visit if they do not wish to find the best gems of the collection gone.

### VENICE.

In her interesting and valuable lecture of yesterday evening Mrs. Florence Williams did not confine herself to an exercise in history. Her best points were made in establishing a comparison, veiled somewhat though it was, between the great Republic of Venice and this little Island Kingdom.

It must have been gratifying to the lecturer to notice amongst her largely increased and appreciative audience the faces of some of the most influential members of our community who will doubtless think out further the suggestive ideas which Mrs. Williams gave us.

Even the most sanguine believer in the Islands would not venture to predict a future for them like that of the Queen City of the Adriatic, but it was very striking to anyone to follow the lecturer's demonstration of the problem of Venetian greatness and to follow out the analogies which so naturally followed.

It was surprising to learn that for a thousand years of unrivaled prosperity the population of that city scarcely exceeded that of these Islands, that her "back country" was absolutely nil, but that by a spirit of enterprise, courage and occasionally great self-sacrifice in her sons, combined with the advantages of a central maritime position, the republic rose to be what she was.

We too have a magnificent maritime position, we have back country of splendidly productive power, a liberal constitution is our most recent boast, but we have as yet no patriotism and but little public spirit.

We could hardly look for the growth of patriotic feeling apart from confidence in our Government or respect for the Sovereign.

When people smarted under a sense of discredit and want of confidence abroad it could not be expected that much public spirit would be shown by them, but now that things are changed we may hope

that evidence will be given by our moneyed men that they have confidence in the work of their hands and that they have the determination to do their best to develop the islands and make them well-known, and well-respected in both the Hemispheres.

### A DIALOGUE.

The following dialogue was overheard the other day:—

A.—How is it, that you, as a public spirited man, highly interested in the future of our islands, have not signed the petition to subsidize the "Paradise of the Pacific?"  
B.—Well, because I do not believe in inducing strangers to visit our islands, when there is so little to show them.

A.—Why, there is the Volcano.  
B.—Very true, on Hawaii, but I want round Honolulu.

A.—What you talk about, we have the finest sceneries round Honolulu.

B.—Yes, we have the Hawaiian Hotel, Waikiki beach, and Thomas Square.  
A.—And the grandest mountain scenery from Roundtop to Tantalus.

B.—Yes, but no road to it. Short and sweet; we have a "Paradise of the Pacific," but no road to it. I will not invite strangers until we have roads, which make our beautiful sceneries accessible, and afford pleasure to travellers. A good road to the Punchbowl, Makiki Waterfalls, Tantalus, etc.

So far A and B, and now comes C. Since the above conversation took place Hon. W. R. Castle has expressed himself as follows:—

"This manner of advertising the country is like the successful advertising of Mother Siegel's Syrup, etc." Now is this not advertising swindle? I am informed that such syrup contains an opiate which quietsens the children by stupefying them. Please ask our doctors whether this is true. If so I call it a criminal swindle. Then the suggestion of advertising a country without roads is as good as praising the advertising of a deceptive drug. Don't bring the people here and then disappoint them. First have roads built to the top of the Punchbowl, to the Tantalus (Oahu), to the Makiki falls, to the mountain lakes, etc., and then advertise and nobody will be disappointed.

### Legislative Assembly.

41st DAY—July 17th.

MORNING SESSION.

RESOLUTIONS AND BILLS.

Noble Smith gave notice of two bills, the first relating to seduction and the other to grant permission to the trustees of the Lunalilo estate to transfer certain property.

Noble Foster said that the committee to whom was referred the Anti-Asiatic petition, found many difficulties in the way of investigating this matter, and therefore introduced a resolution, to the effect that the Supreme Court be requested to give their opinion as regards the constitutionality of certain restrictive measures now before the Legislature.

Rep. Kaubi thought that this was getting out an umbrella before the shower. He believed in passing the laws, and then if they conflicted with the constitution the Supreme Court could annul them.

Rep. C. Brown said that the constitution provides that the Legislature can ask the opinion of the Supreme Court on all important questions of law and they shall be obliged to answer. Now who is going to decide whether this is an important question of law. The resolution should state that in the opinion this House this is an important question of law and then demand an opinion.

Rep. Kaubi said that this committee had tried to crack this nut, and found it too hard. They should then have so reported to the House, and the House could then, if they thought fair, ask the opinion of the Supreme Court. The resolution was adopted.

Noble Smith offered a resolution that the Minister of Finance present to this House a written statement of the amount of taxes collected for the year 1887, and the amount paid tax assessors and collectors for the same period. Adopted.

Noble Waterhouse moved to reconsider the vote of yesterday on the item of \$194 for E. C. Fishbourn. Carried, and the item was again referred to the committee.

Rep. Rice gave notice of a bill

Gents Fine Clothing and Furnishing Goods, Hats, Shoes, Trunks, Valises, Etc., go to the Leaders of Cheap Prices, the ARCADE.

compelling native Hawaiians attending English schools, to be taught to read in Hawaiian.  
Recess until 1 p. m.

AFTERNOON SESSION.

The House re-assembled at 1:30 p. m. and resumed the order of business dropped at recess, viz:—  
RESOLUTIONS AND BILLS.  
Rep. Paehoaole read a first time a bill to regulate the practice of law in the district Courts. Referred to Printing Committee.

SPECIAL ORDER OF THE DAY.

The consideration of the answer of the Minister of Finance to the questions of the Hon. Noble Widemann.

Rep. C. Brown moved to defer the discussion of this matter until after the report from the Judiciary Committee on similar subjects referred to them this morning.

Minister of Finance stated that the law was explicit on this matter. He quoted the law.  
Noble Smith said that as a member of the Judiciary Committee, he should prefer that the Ministers would make a statement of what they consider the law in this matter, before the committee, prior to its being made to the House.

Noble Widemann said that he had something to say in regard to this answer. But the motion to defer action was carried.

ORDER OF THE DAY.

Second reading of bill relating to pounds and estrays.

On motion the bill was considered section by section.  
The first 11 sections passed with amendments. Section 12 relating to hogs was under consideration when the House adjourned until 10 a. m. Wednesday.

42ND DAY—July 18.

MORNING SESSION.

The House opened at 10 a. m. President W. R. Castle in the Chair. Roll called and absentees noted.

REPORT OF COMMITTEES.

Noble Smith read a first time a bill to authorize the Minister of Interior to convey a certain piece of land to the trustees of the Lunalilo estate. Referred to Printing Committee.  
Rep. Paehoaole read a first time a bill to provide a permanent settlement for D. Nakaleka, of \$200 per annum. On motion of Noble Waterhouse the bill was rejected.  
Noble Foster offered a resolution to the effect that no notice of bills be allowed after August 1st, 1888, except those that shall emanate from the Ministry. Carried.

ORDER OF THE DAY.

The House went into committee of the whole, Rep. Kalauka in the Chair, for further consideration of the Appropriation Bill.

The first thing considered was the item of \$194 for E. C. Fishbourn. Noble Waterhouse moved to have the report of the Finance Committee on this item read again. Passed. The report was then read.

Noble Waterhouse asked the Ministry if they think this a just claim. This man brought in a report that was adverse to the administration then in power, consequently it has been destroyed. The man has done the work and should be paid.

Minister Green said that as far as he could find out it was a just claim. There is no doubt but that the work was done, and the claim should be paid. The report rendered by Mr. Fishbourn cannot be found, but it was made. Mr. Green said that he had advised Mr. Fishbourn to present his claim in this way, and then it could be acted upon.

Rep. C. Brown said he wanted to impress upon the House the fact that a similar claim from John F. Bowler for work done under the old administration, was before them, and if they allow one, they should allow another. He therefore moved that when the Committee rise they report action on this item deferred until the report of the Judiciary Committee is had upon the Bowler claim.

Minister Green said he could not concede the position taken by the honorable Representative Brown, that if one claim is paid, all must be. Each claim must stand on its own merits.

Noble Castle said that there had been a claim before this House from Z. K. Meyers for work done while clerk of the Water Works, and it was rejected. He should support the motion to defer action on this item until the report from this Committee on several claims shall have been presented to the House.

Noble Dole moved to indefinitely postpone action. Lost.

Rep. Brown's motion carried. The following items were then passed:

WATER WORKS.  
Laupahoehoe water works. \$ 1,000  
Hilo water works. .... 13,000  
Rep. Kinney moved to insert \$5,000 for the survey of Hamakua ditch, etc.

Noble Baldwin said that \$3,000 as reported by the Committee was an ample sum for the work that is to be done. If surveyors are going there to suck Government pap, then \$5,000 will be hardly sufficient.

At the ARCADE you can buy White and Colored Laces at prices that will astonish you. These Goods have never been offered so cheap before in this Kingdom.

Noble Wight said he was in favor of making the item \$5,000 and extend the investigation to Kohala and see if water could be taken there also. The appropriating of \$5,000 does not necessarily involve the expenditure of said amount. He said that he should strongly urge a thorough investigation of this water supply and the feasibility of carrying the water both ways.
